

International Baccalaureate

**Thinkers, Inquirers, Open-Minded, Risk-Takers, Principled,
Caring, Knowledgeable, Reflective, Balanced, Communicators**

Why an I.B. Education?

There is no better preparation for college success.

You are about to go to High School - time to choose a school, classes and programs. We are one of 4200 schools around the world that must meet rigorous international criteria.

You will learn time-management and study skills including learning to become a better writer and public speaker. You will likely have higher SAT scores. You can earn college credits for some of your courses (all Colorado state schools grant 24 hours of credit to students who earn an IB diploma).

College scholarships can be much greater- colleges like IB graduates. In the spring of 2021, our IB graduates received \$4.8 million in scholarships from various colleges.

1

COMMUNITY OF EXCELLENCE

IB students invest in each other's success

2

COLLEGE PREPARATION

IB students have the skills for success

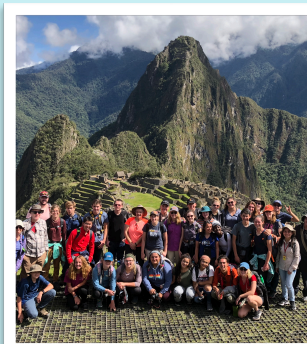

3

WELL-ROUNDED EDUCATION

IB Students challenge themselves in all areas

WE EXTEND THE INTERNATIONAL EXPERIENCE

We take international trips every year where students engage in creative activities and international service. We have been to Poland, the Czech Republic, England and Peru. We plan to resume these trips as soon as it is safe to do so. Our teachers have significant international travel experience and students find these trips to be exciting and formative. In Peru we stayed in a Quechua village, hiked Machu Picchu and ferried down the Amazon to stay in the jungle.
